Subject: RE: EPA comments on the Chlorinated C3 Streams HPV Challenge Submission

2 April 2007

Mark W. Townsend, Chief  
HPV Chemicals Branch  
U.S. Environmental Protection Agency

Dear Mr. Townsend,

The Dow Chemical Company received EPA's comments regarding the test plan and robust data summary for Chlorinated C3 Stream (CASRN 68390-96-5) and is pleased to respond. We have considered the recommended revisions to the compositional analysis, analog justification, physicochemical properties and environmental fate, health effects, and ecological effects. We have revised our submission as indicated on the attached summary sheet. Also included with this submission is a revised test plan. No changes were made to the IUCLID dossier.

With this submission, The Dow Chemical Company has completed the required data set and believes the commitment for this chlorinated stream to have been fulfilled.

Kind Regards,

William T. Stott, Ph.D., D.A.B.T.

Dear Ms Houtman:

Attached please find EPA's comments on the Chlorinated C3 Streams submission to the Chemical RTK Challenge Program and a transmittal letter from Mark Townsend, Chief of OPPT's HPV Chemicals Branch. These items will also be sent to you in hard copy and are expected to be posted on the Chemical RTK website in a few days.
